> San Francisco, Cal., Aug. 6.-Julian T. B. Arnold, the accused son of Sir Edwin Arnold, appeared before United States Court Commissioner Heacock to-day and explained how the Swain trust fund, which he is accused of embezzling came to be lost in the failure of the investment firm with which he

had been connected in London.

He declared that the interest on the trust money had been regularly paid to the widow of W. H. Swain until Dember, 1899, when the firm collapsed reason of the decline in English securities caused by the Boer war. The amount stood on the ledger, of the firm credited to the Swain trust fund, which would participate in the distribution of the firm's assets of \$100,000. He, Arnold, was not personally in in the matter, it being a part of the business of the firm. He denied that he was a fugitive

from justice as he had turned his property over to his creditors, and had no charge pending against him when he left England. The case will be argued

Millions of Bollars Spent Upon Railway Improvements and Their Facilities for Shipping.

New Orleans, like Quebec, is one of the unique cities of the continent It retains many of the customs of a hundred years ago and its people are still impressed with the same characteristics by which their ancestors were distinguished. The cemeterles there for Instance, are veritable cities of the dead, the tombs being laid out in plats, with "streets" running between them, and the bodies all being buried above delighted the inhabitants of early days may still be heard. It is for this resson that many travelers to the East go as far south as New Orleans in grder to witness the uniqueness and quaintness that apparently must always be a part of the city's existence. But there have been great improvements there also, and the railroads are ncipally responsible for the greatest

Blotchy Humors

Instantly Relieved and Speedily Cured by

The itching and burning I suffered in my feet and limbs for three years were terrible. At night they were worse and would keep me awake a greater part of the night. I consulted doctor after doctor, as I was travelling on the road most of my time, also one of our city doctors. None of the doctors knew what the trouble was. I got a lot of the different samples of the medicines I had been using. I found them of so many different kinds that I concluded I would have to go to a Cincinnati hospital before I would get relief. I had frequently been urged to try CUTICURA REMEDIES, but I had no falth in them. My wife finally prevailed upon me to try them. Presto! What a change! I am now cured, and it is a permanent cure. I feel like kicking some doctor or myself for suffering three years when I could have used CUTICURA remedies. H. JENKINS, Middleboro, Ky.
